Delegations

- a) Harvey Kehl and Wilber Roth appeared before the Foundation regarding their project grant for First Mennonite Church Cemetery. Their presentation highlighted when the cemetery became designated, past work done on monuments, future work, annual maintenance, money and grants already received. H. Kehl explained that they use Anderson Contracting because they have the ability to reseal, lift and pour foundations.

In response to members' questions, H. Kehl responded that very little damage is caused by vandalism and explained that each year roughly \$1,000 is spent to bring in soil to help with settling. He noted that stones tend to lean towards the graves and not towards the retaining wall.

When asked if the project would still move forward without the support of the Foundation, H. Kehl stated that they would look at other granting agencies and would have to prioritize.

The delegations provided clarification on the current financial situation of the cemetery explaining that the interest is used for landscaping, resealing and sodding. They continue to sell plots and 40% goes towards the perpetual care fund.

The delegations provided clarification on how they reseal and how monuments are constructed and installed. He also highlighted that they have been using Anderson Contracting for over 20 years and does not know if they guarantee their work but resealing should last about 50 years or so.

Accounts and Grant Summary

Connie Bogusat, Financial Analyst circulated the Accounts and Grant Summary which included a summary of disbursements for February 2018 period, outstanding approved commitments and the Foundation's net funding position.

C. Bogusat responded to members inquires about the Foundation's financial situation at this time last year and provide clarification on the Waterloo Historical Society Annual Volume Grant explaining WHS grant is part of the budget and does not need to submit a grant application.
